

II. General Information

Vessel Description:

"Pacific High" is a custom built 62' Fiberglass sailing ketch. The vessel appears to be well built and very well equipped with regards to mechanical systems. The vessel has accommodations for 6 guests in 2 guest cabins. The vessel has one diesel engines for auxiliary power and has one generator. While the boat has been well maintained and remains in good condition, the vessel stands out from the standpoint of the custom woodwork and craftsmanship that is rarely found on modern boats.
