

BECOME A JUNIOR SEAKEEPER

**Make a real impact on ocean conservation
and explore a career in marine science!**

The **Junior SeaKeepers Program** offers a unique marine science program for high school students to gain practical experience in conservation and ocean research in South Florida.

PROGRAM ACTIVITIES:

- ✓ This program is composed of webinars, workshops, projects, and community engagement events.
- ✓ Science communication and scientific research projects give students hands-on experience sharing what they learn from partner scientists with real local and global audiences, reinforcing learning and teaching responsibility.
- ✓ Volunteer coastal cleanups under the guidance of SeaKeepers mentors.

OCT 2026 – JUNE 2027

**APPLICATIONS FOR THE 2026-27 COHORT
WILL OPEN JUNE 22, 2026 AND CLOSE
SEPTEMBER 20, 2026!**
