PROGRAMMING

Since our last Quarterly Newsletter, SeaKeepers programming has been busy. Over the holidays, S/V *P2* and M/Y *Evviva* deployed SeaKeepers Drifters en route to their destinations in Cuba and the Pacific, respectively. During the winter months the programming team has been occupied with extensive plankton work, including three days of sampling and outreach with University of Florida scientists. SeaKeepers hosted educators from MacArthur Beach State Park on D/Y *Vigilante* and FMSEA members spent a day at sea onboard D/Y *Defiance*. Expeditions sailed from SeaKeepers partners Sailfish Marina Resort, West Palm Beach and Island Gardens Deep Harbour, Miami.
