## Through The Porthole

### Orca aka Killer Whale (*Orcinus orca*)

Orcas, or killer whales, are the largest of the dolphins and one of the world's most powerful predators. Orcas lifespan ranges from 50 to 80 years. They can grow up to 32 feet long and weigh up to 6 tons. Orcas are immediately recognizable by their distinctive black-and-white coloring and are very intelligent.

## Donate Today!

### You Can Help Protect Our Oceans!

100% of your tax-deductible donation goes towards the DISCOVERY Yachts Program! SeaKeepers DISCOVERY Yachts Program provides the use of vessels at little to no cost for marine scientists, educational outreach programs, and global instrument deployments.
