CORPORATE SPONSORSHIPS

The International SeaKeepers Society

OUR MISSION

The International SeaKeepers Society promotes oceanographic research, conservation, and education through direct involvement with the yachting community. Providing educational resources and hands-on marine science experiences to students is the primary focus for ensuring the future wellbeing of our planet. SeaKeepers enables the yachting community to take full advantage of their unique potential to advance marine sciences and raise awareness about global ocean issues.

Our small but distinguished membership includes entrepreneurs, yachtsmen, corporations, divers, scientists, and concerned citizens building a global movement to help restore and protect the world's oceans. As a private/public collaborative effort, the Society focuses on critical ocean issues in cooperation with government agencies, other like-minded organizations, the academic community, and the public. *Our motto is, "Research. Educate. Protect and Restore."*

SCIENTIST-LED EXPEDITIONS

Scientist-Led Expeditions provide yacht owners, guests and crew the opportunity to participate in ongoing research while engaging with marine scientists and their team.

CITIZEN SCIENCE TRIPS

These small-scale projects depend on community volunteers to support environmental initiatives. These expeditions permit vessel owners and crew to participate in ongoing research projects.

EDUCATIONAL OUTREACH TRIPS

Educational outreach events are focused on the next generation of marine enthusiasts and provide a lesson plan in some aspect of marine conservation. Subject matter includes marine wildlife, instrument deployments, plastic pollution, sustainability practices and more.

COMMUNITY ENGAGEMENT EVENTS

The organization is actively involved with the local community and takes part in scientific seminars, educational events, beach cleanups and yachting industry functions.

Mission Expansion

In 2022, SeaKeepers expanded its vessel donations team to have representation on the West Coast of the USA. The West Coast Director develops that territory for vessel contributions and establishes an environmental program in support of sustainability practices in the yachting community.

Since establishing representation in London in October 2021, SeaKeepers has expanded its programming in that region. Our representative in London is able to establish partnerships with organizations that align with the SeaKeepers' goal and amplify our mission.

SeaKeepers Asia, launched in 2015 and based in Singapore, aims to create better local awareness of the oceans and introduce marine science and conservation to youth. The organization partners with various initiatives for citizen science and community engagement, as well as local schools for educational outreach programs.

Networking

- Table for up to (10) guests at all SeaKeepers' hosted events in Fort Lauderdale, Miami, Palm Beach, Monaco, Hamptons, England and Singapore with VIP service.
- Inclusion of branded items in gift bags for SeaKeepers' hosted events in Fort Lauderdale, Miami, Palm Beach, Monaco, Hamptons, England and/or Singapore.
